Commissioner of Patents and Trademarks

Office Action Summary

Application No. 09/002,178	Applicant(s) Bohr	
Examiner Maria Guerrero	Group Art Unit 2822	

☒ Responsive to communication(s) filed on Dec 28, 1999

☒ This action is **FINAL**.

☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11; 453 O.G. 213.

A shortened statutory period for response to this action is set to expire 3 month(s), or thirty days, whichever is longer, from the mailing date of this communication. Failure to respond within the period for response will cause the application to become abandoned. (35 U.S.C. § 133). Extensions of time may be obtained under the provisions of 37 CFR 1.136(a).

Disposition of Claims

☒ Claim(s) 1-20 is/are pending in the application.

Of the above, claim(s) _____ is/are withdrawn from consideration.

☐ Claim(s) _____ is/are allowed.

☒ Claim(s) 1-20 is/are rejected.

☐ Claim(s) _____ is/are objected to.

☐ Claims _____ are subject to restriction or election requirement.

Application Papers

☐ See the attached Notice of Draftsperson's Patent Drawing Review, PTO-948.

☐ The drawing(s) filed on _____ is/are objected to by the Examiner.

☒ The proposed drawing correction, filed on Dec 28, 1999 is ☒ approved ☐ disapproved.

☐ The specification is objected to by the Examiner.

☐ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. § 119

☐ Acknowledgement is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d).

☐ All ☐ Some* ☐ None of the CERTIFIED copies of the priority documents have been

☐ received.

☐ received in Application No. (Series Code/Serial Number) _____

☐ received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

*Certified copies not received: _____

☐ Acknowledgement is made of a claim for domestic priority under 35 U.S.C. § 119(e).

☐ Notice of Informal Patent Application, PTO-152

— SEE OFFICE ACTION ON THE FOLLOWING PAGES —

Art Unit: 2822

DETAILED ACTION

1. This Office action is in response to the Amendment filed December 28, 1999.

Claims 21-30 are canceled.

Claims 1-20 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "a semiconductor substrate", lines 1-2; "a semiconductor substrate", lines 3-4. It is unclear if the claim is referring to the same semiconductor substrate. It is suggested to replace "a" by --the-- in claim 1, line 3.

Art Unit: 2822

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

5. Claims 1-4, 6-8, 10-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Efland et al. (U.S. 6,025,275).

Efland et al. discloses forming a dielectric layer 22 over a metal interconnect layer on a substrate, the metal interconnect layer including a bond pad and a metal member space apart from the bond pad by a gap (fig. 1A), the dielectric layer 22 may be composed of several layers of dielectric having different makeup, the dielectric layer 22 may be oxide and nitride (or polyimides) (col. 3, lines 40-45, col. 5, lines 25-30). Efland et al. also discloses forming an opening (fig. 1A). Efland et al. teaches forming a conducting barrier layer 30 over the dielectric layer, over sidewalls of the opening, and over the exposed top surface of the bond pad (fig. 1B, the formation of a continuous seal is inhered). Furthermore, Efland et al. shows an electroplating process to form a copper lead 50 (fig. 1C, col. 5, lines 30-40).

In addition, Efland et al. discloses the dielectric layer 22 may be composed by several layers, it is inhered from the disclosure: the formation of a first, second and third dielectric layers.

Art Unit: 2822

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 5, 9, 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Efland et al. (U.S. 6,025,275) as applied to claims 1-4, 6-8, 10-19 above, and further in view of Byrne (U.S. 5,136,364).

Efland et al. discloses forming a dielectric layer 22 over a metal interconnect layer on a substrate, the metal interconnect layer including a bond pad and a metal member space apart from the bond pad by a gap (fig. 1A), the dielectric layer 22 may be composed of several layers of dielectric having different makeup, the dielectric layer 22 may be oxide and nitride (or polyimides) (col. 3, lines 40-45, col. 5, lines 25-30). Efland et al. also discloses forming an opening (fig. 1A). Efland et al. teaches forming a conducting barrier layer 30 over the dielectric layer, over sidewalls of the opening, and over the exposed top surface of the bond pad (fig. 1B).

Efland et al. does not specifically show the barrier layer having a nickel-vanadium layer as claimed. Nevertheless, this is known in the art as evidenced by Byrne.

Byrne '364 discloses forming: a substrate 10, a bonding pad 11, a two component passivation layer, a first dielectric layer (silicon dioxide), a second dielectric layer (silicon nitride),

Art Unit: 2822

a third dielectric layer can be a polyimide layer (fig. 3-5, col. 2, lines 60-65, col. 3, lines 1-35). Byrne '364 also teaches forming an opening to exposed the top surface of the bonding pad, depositing a barrier layer (fig. 3). Byrne '364 discloses typically bumps are connected to the bonds pads. Byrne '364 also discloses a barrier layer comprising a nickel-vanadium layer (col. 2, lines 40-43).

It would have be obvious to a person of ordinary skill in the art to modify Efland et al.'s process by including a nickel-vanadium layer as taught Byrne. The modification would provide an improved copper interconnect structure.

Response to Arguments

4. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2822

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

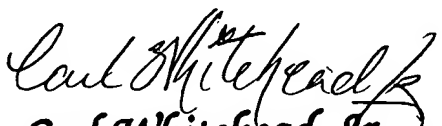

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maria Guerrero whose telephone number is (703) 305-0162. The examiner can normally be reached on Monday-Friday from 8:00 Am to 4:30 Pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Whitehead, can be reached on (703) 308-4940. The fax phone number for this Group is (703) 308-7722.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0956.
